TREASURERS SUMMARY REPORT

General Meeting 9 March 2026

Financial Position – 28 February 2026

The current liabilities are primarily related to uniform stock purchases, which represent inventory rather than operational expenses. As this stock is sold through the uniform shop, these purchases will convert back into cash and support ongoing P&C activities.

The P&C currently maintains sufficient cash reserves to meet all outstanding liabilities, indicating a stable short-term financial position.

Most of the P&C's available funds are already allocated to previously approved initiatives, meaning that any new spending proposals may require either future fundraising or reallocation discussions by the committee.

Regular monitoring of allocated funds and stock purchases will help ensure the P&C maintains a healthy balance between meeting current commitments and retaining flexibility for future initiatives.

School Staffing – Students with a Disability

At Berrinba East State School, we are committed to ensuring every student can access learning and experience success. Families sometimes assume that funding or teacher aide time is allocated to individual students with a disability; however, Department of Education resourcing is provided to schools to support the overall needs of students requiring adjustments. Schools then determine how these resources are used across classes and programs to best meet the needs of all students. This support may include specialist teacher assistance, teacher aide support, adjustments to classroom learning, targeted intervention programs and resources that help students participate fully in learning. As such, support does not usually look like one-to-one assistance in the classroom. These supports are regularly reviewed to ensure they remain responsive to student needs, and we value working closely with families as part of this process.

At Berrinba East State School, our current staffing allocation to support inclusion includes **5.09 FTE teachers** (Ms Feher, Ms Millar, Ms Skinner, Ms Clarke and Mrs Naiper) and **138.7 hours of teacher aide time** each week (a full-time teacher aide is 30 hours). Our teacher aides include Mrs Hendren, Mr Sawyers, Mrs Morris, Mrs Wilson, Mrs Essex-Carter and Mrs Hodges. On top of this, the school funds two Speech Language Pathologists (Ms Robson and Mrs Simmich) and an Occupational Therapist (Ms Florence). These staff work across classes to support students, develop and implement individual plans, and work alongside classroom teachers to ensure appropriate adjustments are in place. Our Inclusion Team does a remarkable job supporting a large number of students and their teachers across the school.

Request to Change Classes

While I was on leave, a small number of families requested class changes for their children. These requests were generally related to social conflict with other students or a preference for a different teacher.

From this point forward, changes to class placements will only occur in exceptional circumstances. Changes of this nature can cause significant disruption to a child's learning, often outweighing any short-term benefits gained from moving classes. In many cases, accommodating a move also requires another student to change classes, which can disrupt learning for multiple students.

At Berrinba East State School, our preference is to work collaboratively with families and students to address concerns within the existing class setting. By doing so, we can support children to develop resilience, confidence and the skills needed to navigate challenges in a positive and supported way.

Communication Protocols

Strong partnerships between families and schools help support student learning and wellbeing. At our school, we are committed to open and respectful communication with parents and carers. Families can expect regular updates about their child's progress, information about school events, and communication about learning, wellbeing and attendance. We also value feedback from families and provide opportunities such as parent-teacher interviews to discuss progress and celebrate student achievements.

To help ensure communication is clear and respectful for everyone, it is helpful to understand what families can expect from the school, and what may not be possible.

You can expect the school to:

- Recognise and celebrate your child's achievements
- Report on your child's academic progress
- Communicate about learning, wellbeing and development
- Inform you of any serious issues concerning your child
- Notify you if your child is absent without explanation
- Provide information about school events and updates
- Offer opportunities for feedback and parent-teacher interviews.

You should not expect:

- Immediate responses to non-urgent emails or phone calls (responses may take two or more business days)
- Staff to respond outside of work hours, including evenings and weekends
- Communication with teachers through their personal social media accounts
- Access to teachers' personal phone numbers or email addresses

- Meetings with teachers during the school day without an appointment.
